

Gichobi Alex

Computer Science & Mathematics Specialist

Professional summary

A highly analytical and detail-oriented Computer Science and Mathematics graduate with a strong foundation in problem-solving, logical reasoning, and computational thinking. Skilled in designing efficient algorithms, developing scalable software solutions, and applying mathematical principles to real-world challenges. Proficient in multiple programming languages and experienced in data analysis, system design, and software development methodologies.

Demonstrates a strong ability to bridge theoretical concepts with practical applications, delivering innovative and reliable solutions. Adept at working both independently and collaboratively in dynamic environments, with a passion for continuous learning and emerging technologies. Committed to leveraging technical expertise and quantitative skills to drive impactful results in technology-driven fields.

Experience

Software Engineer (Freelance)
LEAKEY_DEVSTECHNOLOGIES (Jan
2023 - Present)

- Collaborated with stakeholders to design user interfaces that provided intuitive navigation and enhanced user experience on various platforms.
- Developed and implemented software solutions utilizing Agile methodology, JavaScript, HTML, CSS and React.js.
- Created user interfaces for complex software applications.

Skills

- Database Management
- Software development
- Data Analysis
- Mobile App Development
- Expert in MATLAB
- Cyber security
- Machine Learning and artificial intelligence
- API design
- Technical Support
- MS Access and Linux
- Graphics and UI/UX Design
- Conducted thorough unit testing, integration testing, and system testing to ensure software quality and functionality.
- Optimized software performance by identifying bottlenecks and implementing efficient algorithms and data structures.
- Wrote well-designed, testable code.
- Participated in the full software development life cycle (SDLC) from requirements gathering through system implementation.

IT Specialist

AGAPE JUNIOR SCHOOL (March 2022 – November 2022)

- Created detailed reports outlining the status of each technical issue reported by school staffs.
- Provided guidance in setting up secure wireless connections for school networks.
- Created user accounts, managed passwords, set up file sharing permissions and monitored user activity.
- Assisted with installation of new equipment including routers, switches, servers.

- Installed, configured and maintained various software applications on Windows systems.

Certifications

- Bachelor of science in Computer Science & Mathematics
- Diploma in Computer Science
- Certificate in Certified Cisco Network Associate (CCNA)
- Certificate in web3
- Certificate in python programming

Education

- Bachelor of Science (B.S.) in Mathematics and Computer Science (2023-2025, ZETECH UNIVERSITY)
- Diploma in Computer Science (2019 - 2021, ZETECH UNIVERSITY)
- Certification in Certified Cisco Network Associate (CCNA) (2019 - 2020, ZETECH UNIVERSITY)

Software Developer

KENNY EAST AFRICA (KENNYMART) (June 2021- oct 2021)

- Modified existing software to correct errors, adapt to new hardware or upgrade interfaces.
 - Participated in technical discussions and meetings, providing valuable insights and solutions.
 - Debugged and resolved software issues efficiently, minimizing downtime and ensuring application stability.
 - Modified existing software to correct errors, adapt it to new hardware and upgrade interfaces and improved performance.
 - Wrote detailed technical documentation outlining system architecture, coding conventions and best practices.
 - Troubleshoot minor problems and reported larger technical issues.
 - Performed general maintenance and repair.
-

Software Developer (Intern)

ANZA CLOUD LIMITED (Feb 2021 – May 2021)

- Performed general maintenance and repair.
 - Developed user interfaces utilizing HTML5, CSS3, JavaScript, jQuery, AJAX, AngularJS.
 - Resolved customer inquiries related to software development process.
 - Created unit tests for existing software components to increase reliability.
 - Consulted with customers and other departments on project status, proposals and technical issues, such as software system design and maintenance.
-
